

Neutron Sports and Creo Mundi Protein Drink

Tasty & Refreshing ~ the goodness of Creo Mundi's all natural protein drink is clearly the choice for Neutron Fitness & Sports.

Having a long and involved background in fitness and drug free sports, the importance of finding a quality all natural protein drink to recommend to our athletes is paramount. However we do not limit it to our athletes but recommend it anyone who cares about their overall health and wellness.

We find that Creo Mundi's unique blend gives it an abundance of powerful and potent ingredients that are beneficial for overall health and longevity. With zero Cholesterol, zero Saturated Fats, two grams of Carbohydrates and only 110 calories, yet packed with 25 grams of protein this is an incredible protein drink that will satisfy your body's protein needs and give you a surplus of peak energy and recovery for your muscles.

It's free of artificial colors, preservatives, sugar substitutes, cholesterol, etc., which is important to long term health, building muscle, losing weight, and maintaining endurance. Even better, it has a smooth enjoyable texture and tastes great!"

Protein is important to everyone ~ not just elite athletes...We would recommend it as part of your lifestyle everyday...regardless if you are a top athlete or not! It will help restore your energy levels and keep you on the right track to maintaining a healthy and long life.

Creo Mundi is undoubtedly the way to go!

Sincerely,
Stephen C. Mackey H.G.F.N.

Neutron Fitness & Sports Organization
International Fitness Sanctioning Body for Canada
Ms. Fitness Canada & Ms. International Fitness
Canada

**Creo Mundi Protein Drink has more
undenatured protein per serving than
most on the market today!**

**25 grams protein per serving
packed with energy to help you
through your game/performance or
other activities...even your busy day!**

Creo Mundi agrees with Canada's Food Guide and Dieticians across the country that promote the eating of whole foods as the best way to balance your diet. However we also recognize that our lifestyles today often do not allow us the time to eat as healthy as we would like. So when you cannot make the time for a good breakfast for example, start your day with one or two scoops of Creo Mundi protein drink in milk, juice, water or other liquid - I do. Every day. *As part of a balanced
diet, Creo Mundi
Protein provides a
good source of
cysteine-rich protein
for all ages.*

*A Reputation for
Superior Quality
and No Surprises!*

Elite Athletes Have Known The Secret of Whey Isolates for Years

A Message From:

Alison Prentice RN BScN
CEO
Creo Mundi International

Performance

Elite athletes have known for years the benefits of a superior pure whey protein isolate such as Creo Mundi Protein Drink to give them that edge in

performance, greater endurance, and faster recovery post game/workout. Whey protein isolates are important to help turn fat into lean, toned muscle. Pure whey

protein iso-

lates like Creo Mundi Protein maintain lean skeletal muscle mass so important for not only

sports, but for every person at all stages in life. Did you know for example that after 30 years of age you will automatically lose 1% of your muscle mass per year, simply as a result of aging? That's if you don't do anything to correct it that is! As well, as we get older our bodies become less efficient at processing

protein. Adding Creo Mundi Protein Drink (100% pure whey isolate) as part of your balanced diet is one way to help minimize that muscle loss. And as it is totally absorbed and totally utilized by the body...a great way to make up for the loss of efficiency in absorbing other protein.

So boomers and seniors take note!

Balance

Looking for a healthy, great tasting, low carb, low sugar, lactose free drink for your special needs? You've got it with Creo Mundi Protein Drink! With a superior heart-healthy profile, Creo Mundi Protein Drink is endorsed by a growing list of natural athletes and organizations, and recommended by trainers and kinesiologists to all their clients—not only for workouts, but as part of a daily balanced diet.

When your body is under stress, whether through sport, exercise, surgery, chemotherapy, radiation, or just plain busy—our pure whey protein isolate helps enhance the immune system by raising the body's levels of glutathione, which is a powerful antioxidant produced by the body to protect cells and neutralize toxins. Adding glutathione

to your diet with pills just doesn't work—it passes through the digestive

system with little absorbed. Your body produces glutathione when the necessary precursors are there, such as cysteine, making our cysteine-rich pure whey protein isolate an important part of helping to maintain a healthy immune system.

Vitality

Forget energy drinks, forget caffeine, forget sugar—get a natural boost of energy from Creo Mundi Protein

Drink with its high levels of branched chain amino acids (BCAA) and essential amino acids (that cannot be produced by the body but must be obtained through food). Called the perfect protein for its high biologic value (how well the body can absorb and utilize the nutrient), our pure whey protein isolate contains the biologically active ingredients that help stabilize blood sugars so you don't get those highs and lows after eating, help reduce stress and alleviate depression by slowing production of the powerful stress hormone, cortisol, and helps promote the release of serotonin, a calming neurotransmitter (brain chemical).

Feel better, feel stronger, and have confidence in a company with a reputation for no surprises.
