

## What's so special about Creo Mundi shirts?

Every clothing item has hundreds of uplifting words printed on the INSIDE front AND back panels...words like *energy, greatness, harmony, joy, prosperity, strength and unity*. The items can also be worn inside out to inspire every individual who is embraced by them.

Intuitives, Healers, yoga practitioners, Naturopathic Doctors, Reiki Masters, and others in touch with their energy have all described these shirts as positively bursting with energy!

Dr. Pat Bacilli (called the "Oprah" of talk radio) when introducing our guest segment for Seattle KKNW AM radio said this:

*"When you think there are no more creative ideas on how to create a new vibration, a new level of consciousness in the world...think again! I am so jazzed about what you are doing!"*

This is *your* opportunity to attract more positive energy into your life by using the Power of Intention in these products!
